ANTI-STATIC FOOT GROUNDERS

MODEL No. HS-750R (BT-111/112)

ANTI STATIC ONE PIECE

TOE STRAP (GROUNDERS)

- MODEL: HS-750R

SPECIFICATION:

* Material : Sole: BT-111 - 1 mm Conductive rubber
BT-113 - 1.6 mm two layers anti-slip conductive rubber

Toe & Heel area : Stretch adjustable elastic band for comfort

* Resistivity : Sole - $10E4 - 10E6$ Ohm/Sq.

Grounding:

1. With one meg resistor - $10E6$ Ohm $\pm 5\%$
2. Without resistor - $10E4 \approx 10E6$ Ohm $\pm 5\%$

* Optional Resistor:

1. One meg resistor or without resistor
2. Built in (interior) resistor or molded exterior resistor

* Feature : Toe grounders are useful for footwear that are compatible with Standard heel grounders.
This includes women's high heels,
women's flats and some western boot styles.
