## Purestat® ESD polyester glove

Pvc ESD Gloves (GL-3001)

Size S,M,L,XL-30205009\30205004\30205001\30205002

### Product picture:

### Product description:

The ESD gloves are made of Polyester material with conductive yarn and are used in Electronic assembly where static charge is a concern. These ESD gloves are designed to work with static sensitive devices where bear hand are not desired. ESD gloves are suitable for class 1000 - 10,000 clean-room environment. Conductive yarn is spaced every 5mm or 10mm to dissipate a charge at a higher rate. Surface resistivity  $10^6 \sim 10^9$  ohm. Material is washable and gloves can be reused. It has good elasticity and anti-static properties, and can keep product from being damaged by human static charge. It applies for Electronic manufacturing, Semiconductor industry and Medical device manufacturing

#### Product application:

Electronic manufacturing, Semiconductor industry and Medical device manufacturing

#### Size and packing:

Product	13 Gauge Carbon Fiber ESD Gloves
Material	Nylon,
Size	S,M,L,XL,XXL
Gauze	13 Gauze
Cuff Style	Elasticated knitwrist
Coated Type	Polyurethane coated on finger or palm
Coated Color	White
Surface Resistance	$10E6 \sim 10E9$ ohm/sqm
Weight	17-23g/pair
Packaging	10 pairs / polybags,

#### Application Fields

- Cleanroom
- General assembly
- Light engineering work
- Maintenance or micro-mechanical tasks
- Pharmaceutical processing
- Inspecting precise parts, articles, etc.
- Delicate and precise operations, such as assembly jobs in electronic, circuit boards. computer, automotive assembly, semiconductor, micro-processor and compact disk lines
- Garden, construction, refuse collection and warehousing
