

## Purestat Clean Polyester Swab

### Description

Purestat® Clean Polyester swab are excellent swab for cleaning HDD components, optics, medical device or vacuum equipment. Its laundered Purestat® clean swab head construction provides good particle and residue removal without any abrasion. Unique thermal bonding and cleaning process ensure a minimum of particle shedding from polyester seal. The handle is made from a patented Inherently polymer to provide clean, permanent protection without contributing particulate contaminates to the cleanroom.

### Features

- ◆ The head is made by polyester Filament fiber and wash by Pure water.
  - ◆ Thermal bonding head, no chemical bond contaminations.
  - ◆ Low particle generation and less contaminated ions.
  - ◆ Low nonvolatile residue.
  - ◆ Available for cleaning small slotted and grooved areas.
- ◆ Suitable for most solvents and has good solvent absorption.
- ◆ No silicone oil, amide, DOP, etc.
- ◆ Packing in Class 10 Cleanroom.
