

## SMD Counter

### SMD counter Application

1. Any size Reel SMD electronic components/chip, such as SMD capacitor, SMD resistor, etc
2. Space between two components: 2,4,8,10,12,16,24,32,44,56(mm)
3. Width of reel: 8, 12, 16, 24, 32, 44, 56mm
4. Suitable for all industries related to SMD components

### SMD counter Sepcification

Model	Model 11 / Model 12
Voltage	220V / 110V 60HZ / 50HZ
Power	30W
Counting range	-99999~99999pcs
Dimension	L470Xw300xH180mm
Weight	10KG
Speed	Fast, 3 levels adjustable
Warranty	1 years
Function	Leak detection
Stop automaticly	YES

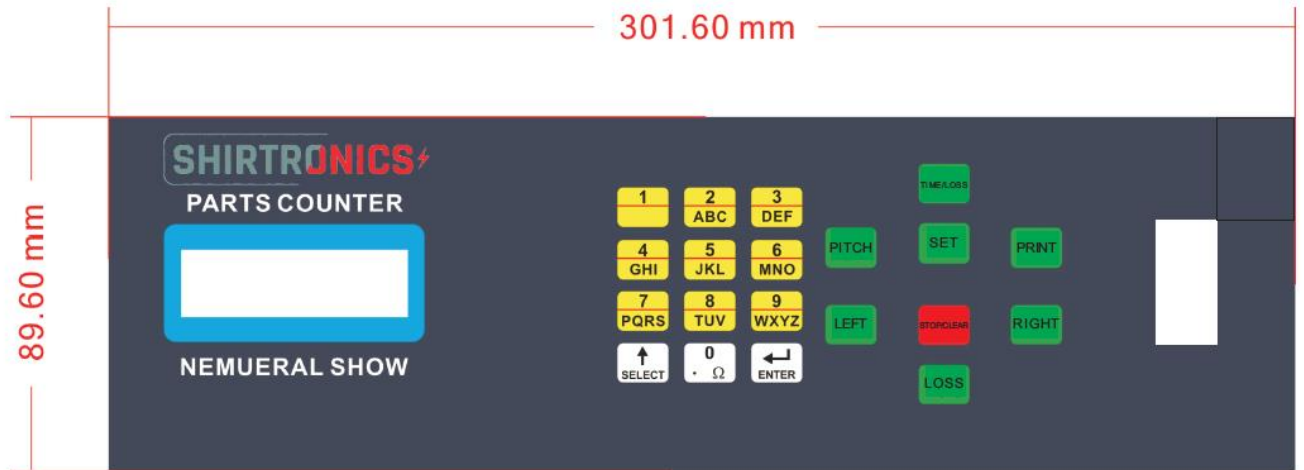

### SMD counter Features

1. Easy operation. Vertical appearance for both standing and sitting operation.
4. Fast counting speed, such as 5000pcs / 30 seconds.
5. Buffer to stop the machine when it is close to the end.
6. Pre-set counting amount, easily get the correct number of SMD components you need.
7. Precisely count the number of SMD parts to better control inventory.
8. Suitable for any size of SMD reels.
9. Small in size, light in weight, portable.

### Optional features

1. Scanning device
2. Printing device

23B
