

ECT110 Ecco Air Duster

Description:

Ecco Air Duster are aerosol products that are designed for convenient use in many industrial applications. Ecco Air Duster perform as compressed air that deliver a dry blast to remove microscopic dust in numerous applications in areas of electronic, photographic, computer, and other equipment. Ecco Air Duster is a pure product with no traces of contaminants and oils, which is essential for critical applications.

Uses:

Ecco Air Duster removes microscopic dust from: • Microminiature assemblies • Electromechanical instruments • Magnetic tapes & heads • Servomechanisms • Computer peripherals • Timing devices • Optics • Photographic equipment

Technical Properties:

Color	Not applicable
Curing Time	Not applicable
Density	1.21 @ 77°F/25°C
Vapor pressure (mmHg).	96.16 psia @ 77°F/25°C
Shelf Life	36 Months
Packing	400ml can
