

PRODUCT CATALOG

Model No. : HRP230

Product Name : Earmuffs

Pic :

Descriptions : SNR: 27dB NRR: 25dB

HS Code : 6506999000

Color: Yellow

Standard: EN352-1: 2003

Description:

Padded headband and ear cups for extended comfort

Unique double-shell design guarantee offer high noise reduction rating

Generous space inside cup to help the ears breathe thus improving comfort

Professional earmuffs for durability and reliability

Suitable for loud machinery, lawn movers, engines, industrial machines, power tools, loud music, noise places

Materials:

Cup: ABS / Cushion: Foam

Instructions for use:

The ear defenders must be worn at all times in noisy environments (noise levels above 80dB) and must be chosen with an attenuation index in accordance with the ambient noise to be reduced (see performances). Ensure that the ear defenders are correctly adapted, adjusted, maintained and inspected, in accordance with these instructions. If these instructions for use are not respected, the effectiveness of these ear defenders will be diminished substantially. Be warned that spectacle frames and hair between the ear pads and the head can also affect the performance of the ear defenders.

Limits to use:

Ear-muffs, and in particular cushions, may deteriorate with use and should be examined at frequent intervals for cracking and leakage, for example. If any damage is found, throw the ear defenders away. The fitting of hygiene covers to the cushions may affect the acoustic performance of the ear-muffs. These ear defenders can cause allergic reactions in sensitive subjects, and if such a situation occurs, leave the noisy environment and remove the ear defenders.

Instructions for storage:

Put the ear defenders away after use in a cool, dry place, out of the light and protected from frost. When it is not being used, store in the original packaging.
